[About](#)

Welcome to the Ikon AVS monthly news letter keeping you up to date with the latest developments and new products.

Ikon AVS have been manufacturing innovative AV control and connectivity products since 2002. Being an independent UK owned company we offer high quality, innovative and award winning products with excellent pre and post sales service.

**We can help you with your system designs.**

Give us the info on what is needed and we will advise you on the best products for your system and give you a basic drawing showing the cabling and connections.

We can then supply you with a complete kit including connection plates and cables enabling you to install your system quickly and easily.

**Latest News**

**PNP8**

**Octo Podule**

**Wall 15 Podule**

**iCS-10**

**AV Controller & Router**

Designed for the installation market, the iCS-10 offers a cost effective and versatile combination of facilities and control options allowing it to be used as a stand alone switch / controller or use it with the range of Ikon AVS control panels, such as a PNP8, Octo, Wall and Touch Podules etc.

The iCS-10 offers a new concept for control and switching.

It is a fully configurable control system incorporating three routers to handle XVGA or Component video, Composite video and ten channels of audio, plus a microphone input as well.

It can also control a projector via RS232 with a second RS232 port available for control of other devices.

It is easily configured using the software with most functions simply selected with tick boxes or drop down menus.

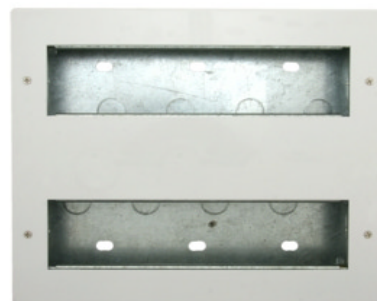

The software to control the iCS-10 is available to download from our web site.

**New Enclosures**

**EP-200GW**

**EP-400GW**

These are new enclosures to the Ikon AVS range. They feature a 200mm wide aperture, which will take 4 x 50mm modules or 8 x 25mm modules or a combination of both. It comes in two sizes and they are ideal for installs giving you room to fit all your connection needs in one enclosure.

Other enclosures are available as well as 1 and 2 gang frames.

[Click here for more info.](#)

## Euro Modules

We have a range of 25mm and 50mm Euro Modules designed with most connection options available. These fit into the above enclosures and also in the range of 1 and 2 gang frames. All available to view on our web site.

Please visit our web site for more info on any of the above and the full range of Ikon products
